ADVANCED TELEROBOTICS RESEARCH

Department of Computer Science
Kent State University

PARENT OR GUARDIAN PERMISSION

Permission for a minor to attend a robot demo

Fill in this form for each child under 18 who comes to an Advanced Telerobotics Research Laboratory robot demo or activity at Kent State University outside a school event (at a school event, the school's own permission slip is used). The lab's director, Jong-Hoon Kim (jkim72@kent.edu), approves every robot demo with K-12 visitors. Return the signed form to [lab contact: name, kent.edu email] before the event.

1 Your child and the event

Child's first and last name _____ **Age** _____

Event or activity _____ **Date** _____

2 What your child may do (tick one)

☐ **Watch only:** robot demos run by trained lab members, from behind the marked demo line.

☐ **Watch and drive the Unitree Go2** (the lab's four-legged robot), only if your child is 14 or older: after a safety briefing, with a trained lab member beside them, one to one, the whole time.

3 Emergency contact and health

Emergency contact name _____ **Relationship to your child** _____ **Phone** _____

Medical notes, allergies and anything else the lab members with your child should know (leave blank if none)

_____

_____

4 Parent or guardian signature

I am this child's parent or legal guardian, and I give permission for the event and activity above.

Parent or guardian name (print) _____ **Phone** _____ **Email** _____

Signature _____ **Date** _____

Draft, Nov. 5, 2026: to be checked against Kent State Policy 3342-5-19 (minors) with Compliance and Risk Management before use.

OPTIONAL: SIGN ONLY IF YOU AGREE

Photo and video release

This release is separate from the permission on page 1. **Saying no changes nothing:** your child still takes part in everything.

5 How the lab uses photos and video

What we photograph: robot demos and the visitors watching or trying them.

Where we may use them: the lab's website and social media, Kent State University news and social media, and printed flyers and reports about the lab.

What we never do: publish your child's name or school with a photo, tag a location or use photos of children whose families said no.

If you say no: your child wears [a colored sticker or lanyard] so our photographers leave them out.

Changing your mind later: email [lab contact: name, kent.edu email] at any time. We will stop using the photos in new materials and remove them from the lab's website and social media within [N] business days. We cannot recall printed materials already handed out.

6 Your choice (tick one)

☐ **Yes.** The lab may use photos and video of my child as described above.

☐ **No.** Please do not use photos or video of my child.

Child's first and last name _____

Parent or guardian name (print) _____

Signature _____

Date _____

FOR LAB USE

Received by _____ Date _____ Photo release: ☐ Yes ☐ No ☐ Noted in the photo log
